

Skate Canada Membership Fee Info

Individuals who participate in a skating program or volunteer at a Skate Canada member club or skating school will become Associate members of Skate Canada once the club or skating school submits the registration to Skate Canada. All Skate Canada members are assigned a unique membership number that is theirs for life.

The Associate member fee is an annual fee of \$32 and is paid directly to the member club or skating school, who will then submit it to Skate Canada. A mandatory member accident insurance is also collected by the club or skating school and submitted to Skate Canada for all members. The member accident insurance fee is \$0.65 per member.
